## Abstract

A chance for several people to have 5-10 minute presentations on their consultancy focus and projects both past and present.

This is an opportunity to provide more information to attendees about what you do to help foster collaboration and referrals among members and others. Some of the best opportunities come from others that know you and your capabilities and can share that information with their clients when the need arises.

Presentations are not formal, but bring a USB drive with pictures and slides to flaunt your wares. Expect 5-10 minutes of presentation time. Time limit will be set depending on the number of participants.
